

An Innovative ID Card Printer Technology Leader

AN INNOVATIVE ID CARD PRINTER TECHNOLOGY LEADER

IDP, one of the ID Card Printer industry, has been dedicated to make a better ID Card Printer with diverse and innovative approaches with its technology.

IDP, one of the pioneers of ID Card printing technology, has developed and manufactured ID card printers since 2005. We differentiate ourselves by providing high quality products with the latest mechanical, electronic and software technologies and by providing the best technical supports and warranties. Our card printers support not only graphic quality color printing and laminating but also all kinds of encodings such as magnetic stripe and contact and contactless smart card.

These printers are used for all kind of cards like employee badges, student IDs, payment cards, access control card, leisure membership cards and customer loyalty cards etc.

IDP aims at making plastic card printing widely available and affordable by offering simple, on-demand and customized printing solutions that bring quality to the largest scope of business users.

We wish you and us become good partners in this industry.

WISE

smart Series

manufactured by IDP Corporation, is a highly engineered dye-sublimation ID Card printer which provides you with maximum efficiency for production of plastic cards in commercial and government applications.

SMART series is designed to support a flexible user environment, which makes it easy to choose the correct printer and save money. You can easily add a flipper or laminator, for dual sided printing or laminating, and various encoders such as magnetic stripe, contact and contactless. The enhanced FINE™ Imaging Technology of the SMART series enables you to print high quality images. The SMART Series will be a perfect choice for Employee IDs, Membership Cards, Access Control Badges, Secure Government Credentials, Social Services Cards, and even the instant issuance of Banking cards.

Please come and experience the flexibility and quality of the SMART series.

TECHNOLOGY

- Clear printing by FINE™ Imaging Technology
- Instant direct heating mechanism for lamination *Patent
- Field upgradable options for dual sided printing and laminating
- Field upgradable encoders for magnetic stripe, contact and contactless smart card
- Automatic ribbon recognition and no need for sensors & motors calibration
- Eco friendly rewritable printing (SMART-31R)
- 500 cards & scratch free (SMART-70) *Patent
- High-durability: Metal frame & shaft, all bearing (SMART-51 & 70)

SOFTWARE

- SMART SDK, to develop customized applications
- SMART Utilities, to check working states and adjust configurations
- Smart ID for designing and issuing cards
- On-Line technical support

CONVENIENCE

- User friendly design for desktop environment
- LCD & LED for status display of printer
- Easy Thermal Print Head (TPH) replacement
- Front input and output hoppers (SMART-31 & 51)
- Drop-in ribbon cartridge (SMART-31 & 51)
- Full modular design (SMART-70)
- Drawer type ribbon cartridge (SMART-70)

EASY
ISSUING

Smart ID ensures appropriate card issuance and data management with SMART series printers at no extra cost. This application allows you to design and issue a desired card conveniently. It can be easily used with simple essential functions. Also, it is designed for advanced user to use a variety of detailed functions.

- Design and print (Image, Photo and Text)
- 1D & 2D Barcode printing
- Auto portrait (Auto face detection, adjustment of size & position)
- Printing of sequential numbers
- Card design templates
- Plug-in for supporting external devices (Sign pad, Camera, Scanner)
- Convenient card issuance and data management
- Magnetic stripe (MS), contact & contactless smart card encoding by using plug-in program

Smart ID is a software which is provided with Smart ID Card Printer.

HIGH
SECURITY

SMART series provides effective security features for access control and data encryption.

- SMART series has a password verification function to provide administrator and user authentications.
- SMART series can set a specific authorized PC for encoding and printing cards.
- SMART series can encrypt data transmitted on USB and can support SSL (Secure Socket Layer) protocol on ethernet communications.
- SMART-70 series is equipped with physical lock and Kensington lock system on each station to increase security.

POWERFUL
NETWORKING

SMART series can utilize the network printer server for encoding and printing cards.

- SMART Ethernet module can not only print cards but also encode MS, contact and contactless smart card through the network.
- SMART Ethernet module has OCP(Open Card Print) protocol which can encode and print cards by using commands on multiple platforms without installing the printer driver.
- Available encoding the contact & contactless smart card by Ethernet.

*App developed by OCP (Open Card Print) on Android or iOS mobile device

Beyond Expandability,

Ultimate ID Card Printer Solution

smart 70
Whatever you want or need!

smart 70 is a high-performance large capacity ID card printer designed by the unique modular concept that can support various printer configurations to meet different user requirements.

500 cards can be continuously printed, laminated and encoded on various cards. SMART-70 consists of 5 different modules (Input Hopper, Printer, Hybrid Flipper, Laminator, Output Hopper) that can be configured in various combinations according to different customer requirements. Required modules can be easily added to extend functions depending on your needs.

Input Hopper

Printer

Hybrid Flipper

Laminator

Output Hopper

Full Modular

Easily Upgradable, No need for Tools or IT technician Just connect each station and synchronize

• Input Hopper

- Large Capacity
Max. 500 cards
- Scratch Free
- Residual Q'ty Sensor
- High Durability / Indicator LED
- Near empty & empty alert notifications
- Physical Lock & Kensington Lock

• Printer

- High Speed Printing
Max. 1,000 cards/h (Mono) | Max. 225 cards/h (YMCKO)
- Enhanced FINE™ Imaging Technology
- Drawer type ribbon cartridge
- Installable MS & Contactless Encoder
- LCD & Button / Indicator LED
- High Durability
- Physical Lock & Kensington Lock

• Hybrid Flipper

- Installable Encoding modules
Contact & Contactless Smartcard Encoder
- Image Scanning & Barcode Recognition
Dual Sided Image Scanning (600 / 300 dpi),
1D & 2D Barcode Recognition (Front / Back)
- Card Flipper
- High Durability, Indicator LED
- Error Card Bin* (Max. 30 cards)
- Physical Lock & Kensington Lock

• Laminator

- No warming-up time
- Instant direct heating mechanism
- Scratch Free
- Drawer type film cartridge
- LCD & Button / Indicator LED
- High Durability
- Physical Lock & Kensington Lock

• Output Hopper

- Large Capacity
Max. 500 cards
- Scratch Free
- Residual Q'ty Sensor
- Full space alert notifications
- High Durability / Indicator LED
- Physical Lock & Kensington Lock

• Stacker

- Max. 100 cards

* If encoder or scanner options are not selected, Error card bin will be provided.

FLEXIBILITY

High Security and Sophisticated **Laser Personalization System**

Laser Engraver for ID Cards

SMART-70X is a laser engraver module of IDP's SMART-70 Series ID card printer. Equipped with laser engraving capability, SMART-70X is a perfect solution for instant personalization of secure cards in an environment where the maximum level of security is required. With the unique modular concept of SMART-70 Series, SMART-70X can be used as a stand-alone laser engraver or with other SMART-70 modules such as SMART-70 direct-to-card printer, Laminator, Hybrid Flipper, Output hopper.

* PC (Polycarbonate) card is recommended for standalone use of SMART-70X.
* Laserable PVC card is recommended for use of SMART-70X with SMART-70 Printer (Dye-Sublimation Printing)

- Stand-alone single or dual-sided laser engraving (Text, Images and Security features)
- 1200dpi, Raster & Vector Scanning
- Max. 103 cards/hour (Single-sided Laser engraving only)
- Micro Text, MRZ (Machine Readable Zone) Text
- CLI (Changeable Laser Image)
- Tactile Effect
- Magnetic encoder, contact / contactless encoder installable
- High Volume Input & Output Hopper, Color & Mono Printing (as optional modules)
- Eco-Friendly Low Power Consumption
- Full Modular Design

Just connect each station and synchronize

Ideal solution for printing high-quality ID cards in moments.

Single-sided SMART-51 (51S) can be transformed into a dual-sided printer (51D) or into dual-sided printer with laminator (51L) by applying Flipper module or Laminator module at the back of the printer which can be easily installable. SMART-51 Laminator is a good option for printing and laminating at the same time which enables to produce extra security long-life ID cards with customizable security patch films. With DLW (Direct Laminating in a Wink) technology, SMART-51 Laminator ensures most stable & fast laminating with premium quality protection for ID cards.

- New Input Hopper (up to 200 cards loading)
- Removable Output Hopper (*Option)
- Support of Transparent Cards
- Cartridge type Laminate Film Loading
- Support CR79 Cards
- Top-side Mag. Encoding
- All-in-One type Lock System (*Option)
- Single Card Feeder (*Option)
- Kensington Security Lock (*Option)
- Back-side Stacker (up to 100 cards, *Option)

Laminating ID CARD PRINTER
smart-51L

- Color & Mono Single Sided Printing
- Print Speed: Max. 17 sec./card (YMCKO)
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- 2 Lines LCD with 2 LED Buttons for Front Operation
- Support of Transparent Cards
- Low Cost Security with UV Printing
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Flipper, Laminator & Ethernet, WiFi

- Single or Dual Sided Printing
- Print Speed: Max. 22 sec./card (YMCKOK)
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- 51S Field Upgradable to 51D
- 2 Lines LCD with 2 LED Buttons for Front Operation
- Low Cost Security with UV Printing
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Laminator & Ethernet, WiFi

- Single or Dual Sided Printing and Laminating
- Instant Direct Heating Lamination ^{patent}
- Printing & Laminating Speed: Max. 22 sec./card (YMCK & Single Lamination)
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- 51S & 51D Field Upgradable to 51L
- 2 Lines LCD with 2 LED Buttons for Front Operation
- Holographic Lamination for Visual Security & Card Durability
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Ethernet, WiFi

- New Input Hopper
200 cards with cover open, 100 cards in default

- Single Card Feeder (*Option)

- Removable - Output Hopper

- Improvement of Print speed
- 300, 600 & 1200dpi Printing Resolution
- Enhanced FINE™ Imaging Technology
- State-of-the-art CPU
- Reduced Printing Noise
- All-in-one Lock system (*Option)
- Easy to Handle Laminate Film Cartridge

- Back-side Stacker
(up to 100 cards, *Option)

- Top-side Mag Encoding (*Option)
- Support of Transparent Card
- Support CR79 Type (Factory-installed, *Option)
- Ethernet, WiFi (*Option)

Simple and Easy for everyone to use

SMART-31 Series value class ID card printer for everyone which is a perfect solution for printing ID cards at a low budget. SMART-31S (single-sided), SMART-31D (dual-sided) and SMART-31R (rewritable) printer models are available.

SMART-31 Rewritable printer is an ideal solution for printing temporary information on ID cards.

Applications

- Employee ID card
- Student ID
- Payment card
- Health card
- Leisure resort pass card
- Identification card
- Transport pass card
- Loyalty card / Event card

Single sided ID CARD PRINTER
smart-31S

- Color & Mono Single Sided Printing
- Print Speed: Max. 23 sec./card (YMCKO)
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- LED Button for Front Operation
- Low Cost Security with UV Printing
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Flipper & Ethernet

Dual sided ID CARD PRINTER
smart-31D

- Single or Dual Sided Printing
- Print Speed: Max. 29 sec./card (YMCKOK)
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- 31S Field Upgradable to 31D
- LED Button for Front Operation
- Low Cost Security with UV Printing
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Ethernet

Rewritable ID CARD PRINTER
smart-31R

- Direct Thermal Rewritable Method
- Rewrite Speed: Max. 12 sec./card
- 300, 600 & 1200dpi with Edge-to-Edge Printing
- LED Button for Front Operation
- Installable Encoders: MS, Contact & Contactless
- Upgradable Modules: Ethernet

Technologies for Printer

Provides a cost effective solution!

Plastic card Printing

Plastic cards are prevalent in our daily lives, such as payment cards driver's licenses, membership cards and employee identification badges. Their standard size, portability, and durability make them the ideal choice for many applications.

Lamination

Lamination uses polyester film onto a card's surface to protect it from heat, pressure, wear, tear and to fight adhesive things. The film is applied to card at a high temperature.

UV Panel

The UV Panel is an advanced form of panel for security that shows a fluorescence image with UV light. It is cost-effective and an easy way to protect fake cards. To prevent counterfeit, some ID cards include a UV watermark which is only visible under the UV light.

Encoding

Encoding is one of the important functions in ID card printer. We issue ID card not only for visual identification but for storing some information. There are three major encoding methods such as magnetic stripe, contact IC and contactless IC. IDP Card printer supplies all kinds of encoding options together with the picture quality printing.

smart 51 KIOSK CARD PRINTER

- Single or Dual-sided Card Printing
- Up to 4 Selectable Hoppers
- 300 or 500 Card Refillable Cartridges
- Up to 212 cards/hour (YMCKO)
- Installable MS, Contact & Contactless Encoder
- Compact and Reliable design
- Customizable bottom plate (Size, Layout of Control Panel & Adaptor, etc.)
- **SMART-51SK** : Single sided ID Card Printer
- **SMART-51DK** : Dual sided ID Card Printer

High capacity, flexible and reliable card printing module for various Kiosks solutions.

The IDP's Kiosk Card Printer is a high capacity, flexible and reliable card printing module for various types of self-service Kiosks.

Using the compact and solid SMART-51 printing engine or high performance SMART-70 printer module and multi-hopper system (up to 6 input hoppers) with detachable 300 or 500 cards cartridge, the IDP SMART Kiosk Card Printer will provide variety of choices depending on the requirements.

smart 70 Multiple Hopper

Whatever you want or need!

- Multiple Hopper system designed to fit the SMART-70 Series
- Up to 6 Selectable Hoppers
- 300 or 500 Cards Refillable Cartridges
- Up to 6 Different type cards loading
- Full Metal structure

Multiple Hopper system designed to fit the SMART-70 Series.

Multiple hopper system for SMART-70 is designed to fit the needs of large capacity with high efficiency for Kiosk operation.

From minimum 2 to maximum 6 large capacity 500 cards hoppers can be used depending on the user environment. Monochrome ribbon supports up to 3000 prints minimizing maintenance cost and time and up to 3000 cards loadable hoppers with 6 different types on each hopper will maximize the efficiency of Kiosk application.

Advantage of SMART-70's unique full modular design makes it possible to add Encoding module and Laminating module.

Full metal structure of the multiple hopper system is ideal for high volume issuance environment.

Securely Destroy Sensitive Personal Information

Security Assurance

Protecting personal information is paramount and IDP SMART-BIT shredder is specially designed to ensure the secure destruction of used ID Card Printer Ribbon with personal information.

Flexible Card Printer Ribbon Compatibility

The SMART-BIT is designed to accommodate the industry's popular brands of direct-to-card printer ribbons.

Complete Shredding

* Twisted Micro-Cut Technology (Patent)

With the IDP's Twisted Micro-Cut Technology, SMART-BIT uses unique twist and cut motions to completely shred ID Card Printer ribbon panels into tiny unrecognizable particles.

Compact Easy-to-use Design

SMART-BIT is compact and light weight in design and will easily fit into any office desktop environment. The SMART-BIT's waste bag will ensure complete capture of ribbon particles and simple transfer to a waste bin.

Shredable Ribbon Type	Dye-Sublimation Ribbon, Resin & Wax Ribbon
Shredable Ribbon Width	60mm to 90mm (Installable Ribbon Core Width : Max. 120mm)
Installable Ribbon Diameter	Max. Ø80
Shredding Speed	Max. 12 meters/minute
Shredder Bin Capacity	6 Rolls (YMCKO, 250 cards/roll)
Cutting Type	Twisted Micro Cut *Patent
Shredded Particle Size	Approx. 2.5mm
Control	Speed (Normal or Fast mode), Start & Stop, Reverse
Auto Stop	Finished Shredding, Ribbon Jam
Interface	4 LEDs, 3 Buttons
Warranty	Approx. 100 km
Power Supply	DC24V, 2A
Temperature / Humidity	15~35°C / 35~70%
Dimensions (W x H x L) Weight	232 x 364,6 x 386 mm / 9,1 x 14,4 x 15,2 inch Approx. 4,8 kg / 10,6 lbs

Complete Shredding

With the IDP's Twisted Micro-Cut Technology, SMART-BIT uses its unique twist and cut motions to completely shred ribbon panels into tiny particles. (*Patent pending)

Easy-to-use

Easy to use interface and shredded ribbons can be easily discarded using the SMART-BIT Waste Bag when full.

Flexible Ribbon Compatibility

The SMART-BIT will accommodate the industry's popular brands of direct-to-card desktop printer ribbons.

Compact Design

The SMART-BIT is simple to use and has a compact size and light weight design that can easily fit into any office desktop environment.

Retransfer class ID CARD PRINTER
WISE - CXD80

- Color & Mono Single or Dual Sided Printing
- Print Speed: 29 sec./card (YMCK)
- Detachable and anytime-refillable hopper
- Intuitive and flexible function LCD panel
- Removable and water-washable cleaning roller
- Security locks on hopper & front door
- Kensington lock
- Inline encoding and lamination (with optional unit)
- Environmentally friendly compact design

Specifications

Model		WISE-CXD80S (Single side)	WISE-CXD80D (Dual sides)

smart-70X & WISE-LE

Model		SMART-70X	WISE-LE
Laser Engraving	Laser Type	6W Air-Cooled DPSS Laser, ND:YAG	
	Resolution	1200dpi	
	Scanning	Raster & Vector Scanning	
	Engraving Mode	Single or Dual-sided Laser Engraving	
	Speed	103 cards/hour (Single-sided Laser engraving only)	
	Warranty	20,000 hours	
Card	Card Feeding	Automatic, Manual	
	Card Size	ISO CR80 (54mm x 86mm / 2.12" x 3.38")	
	Card Thickness	0.76mm (30mil)	
	Card Type	Laserable PVC, PC (Polycarbonate) Card	
Capacity	Input Hopper	Max. 500 Cards (Optional : SMART-70 Input Hopper)	-
	Output Hopper	Max. 500 Cards (Optional : SMART-70 Output Hopper)	-
	Error Card Bin	Max. 20 Cards	
System	Display	LCD & LED	LCD & LED
	Control Panel	4 Buttons	4 Buttons
	Vision Camera	Laser Engraving Monitoring	
	Supported Platforms	Microsoft Windows 7/ 8/ 10	
	Communication	USB	
	Power Supply	100V to 220V ±10%	
	Temperature/Humidity	10~30 °C / 20~80%	
Security	Physical Lock	Laser System, Error Card Bin	
Options	Magnetic	ISO 7811 (Track I, II, III Read/ Write, HiCo/ LoCo), JIS II	-
	Contact	ISO 7816 A/B/C Card, ISO 7816 1/2/3/4 Microprocessor Card	-
	Contactless	MIFARE, ISO 14443 (Type A/ B), ISO 15693, DESFIRE, iCLASS	-
	CLI (Changeable Laser Image)	Yes	-
	MLI (Multiple Laser Image)	-	Yes
Dimensions	Millimeter (WxLxH)	450 x 230 x 425	246 x 447 x 516
	Inch (WxLxH)	17.7 x 9.1 x 16.7	9.7 x 17.6 x 20.3
Weight	Weight	Approx. 25 kg (55 lbs)	Approx. 25 kg (55 lbs)
Laser Safety	IEC-60825-1 CLASS 1 Standard

IDEAL SOLUTION FOR PRINTING HIGH-QUALITY ID CARDS IN MOMENTS

CLEAR PRINTING & ENCODING

HIGH SECURITY

HIGH SPEED PRINTING

EASY ISSUING

POWERFUL NETWORKING

HIGH DURABILITY
